Bosch Connected Control (BCC100)

WiFi Thermostat

The Bosch Connected Control is a sleek, internet-connected thermostat that offers easy all-in-one control for heating and cooling systems. It can be controlled through the BCC100 App and is compatible with most 24Vac HVAC equipment on the market.

The Bosch Connected Control is the perfect solution to help achieve maximum comfort from anywhere!

-  **Connectivity**
Connect to your HVAC equipment from anywhere
-  **Weather**
Access your local forecast from your thermostat
-  **5" Full-Color Touch Screen**
Large screen for ease-of-use and offline access
-  **Programmable**
Follows preset or user-defined schedule
-  **Compatibility**
Compatible with majority of HVAC systems (Requires C-wire)

Connected Control App

The intuitive app allows you to remotely control all of your thermostat's settings. It also allows you to adjust your schedule on-the-go or set it to Vacation mode to save energy while you're away.

amazon alexa "Alexa set living room to 72 degrees"
