

Submittal Data: XK60

XK60 Wired Programmable Controller for U-Match Systems

Job Name _____ Location _____ Date _____

Purchaser _____ Engineer _____

Submitted To _____ For Reference Approval Construction

Unit Designation _____ Schedule No. _____

GENERAL FEATURES

- Tactile Feedback Keypad
- Easy Setup and Programming
- Sleek Thin Design Blends into any Décor
- Convenient LCD Display with Backlighting
- 18-2 AWG cable not included
- Limit cable length to up to 26 feet
- No Batteries Required

Compatible with the following Models:

Indoor Models	Model Numbers
Ceiling Cassette	UMATxxHP230V1AC
Slim Concealed Duct	UMATxxHP230V1AD
Universal Floor/Ceiling	UMATxxHP230V1AF

The XK60 Wired Programmable Controller allows fast & easy access to a large number of functions

The following is a list of typical features and functions support by the X60:

Note: Some indoor models may not support specific system features or functions.

Always refer to the indoor unit Owner's Manual for a complete list of feature and functions.

On/Off - The On/Off button allows you to start and stop the system.

Operating Mode - Allows users to select an operating mode (i.e. Cooling, Heating, Dry, and Fan Only).

Fan Speed -The indoor fan (i.e. High, Medium, Low & Auto) can be adjusted for peak comfort and quietness.

Room Setpoint – Adjust room setpoint temperature between 61 deg F to 86 deg F (16 - 30°C range).

Timer Mode - Program a time period (i.e. 0.5-24 hr.) to which the system will turn ON or OFF.

Sleep Mode – Automatically adjust room temperature during your sleep time (i.e. 0.5-24 hr. range).

Turbo Mode – Turbo will force system to run at higher speeds to reach the desired room temperature faster.

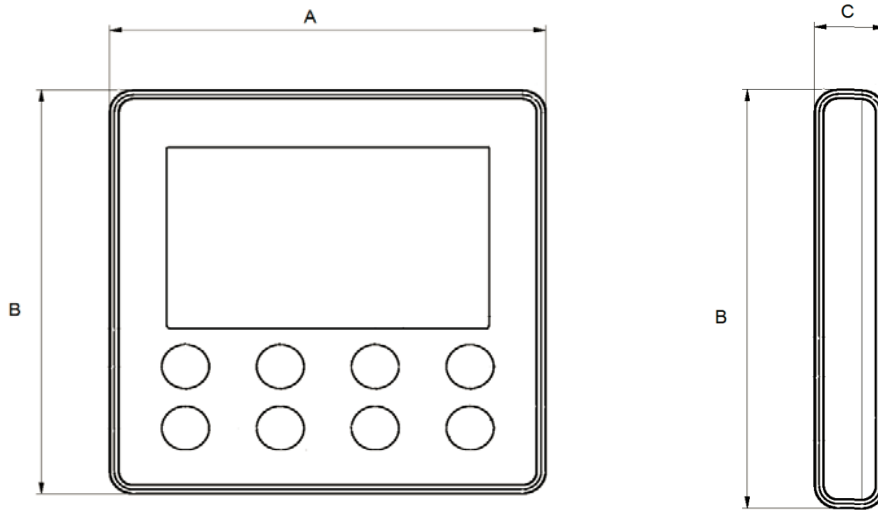

X-Fan Mode - Removes moisture build-up on coil when the system is turned OFF to prevent mold and mildew.

Privacy Lock - Privacy Lock to prevent unauthorized access to the controls and tampering with system settings.
