

BASE STATION MATRIX

Combine your radio with a reliable, quiet ICT power supply and custom fitted cover to create an attractive space-saving base station. This Base Station Matrix will help you select the right cover for your radio, find a matching power supply, or select an ICT Complete Station that includes cover and power supply. Our recommendations are based on the maximum rating of the radio, but you may select a higher or lower output power supply (where available) as shown to best meet your band or usage requirements.

Use this Matrix to find the model number for the Radio Cover that matches your radio, then find the matching desktop power supply or a Complete Station consisting of cover and power supply.

ICOM RADIO MODEL	① RADIO COVER MODEL	② POWER SUPPLY MODEL	③ COMPLETE STATION MODEL
