

## TerraWave Solutions® 890-1990 MHz 2.5 dBi Rubber Duck Antenna with SMA Plug Connector

TerraWave's 2.5 dBi rubber duck antenna is designed for wireless networks operating at any cellular frequency range: 890, 1800 and 1900 MHz. This antenna is ideal for both voice and data wireless application systems. Includes a SMA Plug connector and a swirl joint. Every TerraWave is covered by the Company's two-year TerraNet warranty program. For questions and to purchase product, contact a regional sales executive at 210-375-8482, 800-851-4965 or sales@terrawave.com. Visit www.terrawave.com for additional information.

Specifications	
Model	M4025025R10018
Frequency Range	890-960 / 1710-1990 MHz
Gain	2.5 dBi
Polarization	Vertical
Horizontal Beamwidth	360°
VSWR	≤2.7 / ≤3.5
Nominal Impedance	50 Ohm
Maximum Power Rating	50 W
Height	8.3"
Weight	.09 lbs
Connector Type	SMA Plug (male)

E-Plane

H-Plane
