

PowerDsine PoE Extender

Extends Power over Ethernet Installations to 200 meters

Overview

The PowerDsine PoE Extender is a cost effective way to extend the Ethernet network range beyond 100m, delivering both data and power to network devices such as WLAN Access Points and Network Cameras up to a distance of 200m while complying with IEEE PoE and Data standards.

The PoE Extender supports 10/100/1000Mbps data rates and delivers 802.3at power levels, up to 25.5W. The PoE Extender does not require local power and is powered via the PoE input.

PSE Source	PD Available Power @ 200m
